

# Schematic of the front parts

K1 is to connect with K1 of the main board  
K2 is to connect with K2 of the main board  
K3 is to connect with K6 of the main board  
K4 is to connect with K7 of the main board  
K5 is to connect with the ADSR-Generator  
Contacts K here are pins of the pots

Design Spark V1.0

Stereo-Pot: the higher the Cutoff-Voltage the lower the Amount of Contour: this is to limit diode-currents in vcf
